If you approve of the splendid work of the first session of the 59th congress, vote for Judge J. F. Boyd, republican candidate for congress, and for more of the same kind of legislation in the 60th congress.

George W. Wiltse, of Randolph, republican nominee for state senator, is a man that can accomplish something if sent to the legislature. He is a man of executive ability, and what is more he is a Roosevelt republican.

F. S. Berry, the citizens and republican candidate for county attorney, is not making a house to house campaign, his business demands his attention to a certain extent, and besides, the intelligent voter of today does not care to be bothered and told how he should vote when he is personally acquainted with the candidates.

John Sierk, the citizens and republican candidate for county commissioner, was not nominated to that office for the sole purpose of accomplishing something for his own individual benefit. He was nominated to serve the best interests of the county at large, and is broad minded enough to do this. Vote for Sierk.

AN OPEN LETTER.

To the voters and Citizens of Dakota County:

I in no way sought or desired the nomination for county attorney. All who understand the facts know that my name was presented before the citizens convention without my consent and against my wishes in the matter. In responding to this call and accepting the nomination of the citizens and republican parties, which have nominated me, I beg leave to make the following statement:

I consider it an honor to be a nominee for attorney of Dakota county, and I deeply appreciate the confidence in my integrity and ability which prompted my nomination. I shall do the best I can to merit this confidence, and all I can honorably do to be elected on November 6th. However, my business is such that it will be impossible for me to devote much time to the campaign or make anything like a thorough canvass of the county. At the time I was nominated, and since that time, a very large number of voters (many of them being among the heaviest tax payers in Dakota county) have voluntarily assured me of their support and earnest efforts should I accept the nomination. I shall be compelled to rely upon them a great deal to promote my campaign.

Again I consider any attorney is highly honored who may be elected attorney of this county. And when elected I believe he should consider the office a public trust; that he should see that law and order are maintained and that the property and the rights of the county and its citizens are protected; prosecute, without fear or favor and without regard to political prestige, friendship or sentiment. I believe that he should be honest and square and reliable, stand for his convictions, and work for the best interests of Dakota county, and not for his own interests or future political favor. I believe that he should do his duty with the least expense possible, and that he should be economical and careful of the tax payers' interests.

The above things I believe and if I am elected I shall do my duty as county attorney to the best of my ability and as my sense of right and conscience direct. Whether or not I am sincere in these things is for you to determine and judge. I have lived among you for over three years; during this time I have enjoyed a good and profitable law business. I am willing you should investigate my professional standing and business methods and form your own conclusions. If after so investigating, you deem me worthy and capable and feel that you can conscientiously give me your support I shall be glad to have it.

Naturally, since I have accepted the nomination, I very earnestly desire to be elected. My opponent as earnestly desires that he may be elected. His desires and my desires are of little importance. Your interests and the county's best interests are of great importance. No man should be elected to public office because he wants it or needs the office. I believe it one's duty to vote for the man whom the office needs and who will best serve the county.

I respectfully solicit your consideration and your support.

FRED S. BERRY.

Finally one of the horses fell down—and they did not all fail like the soldiers—but stopped, and with no one hurt except Luther Priest who was hit with an iron rod giving him a lame shoulder.
